Wayfinding 101: School Signage Solutions

From preschools to universities and every school in between, all educational buildings need directional sign solutions. From wall frames to directories, towers and more, The Sign Makers' Handbook™ provides a comprehensive line of sleek, stylish and functional school sign systems that can be matched with customized graphics to align with school themes and colors.

ROOM IDENTIFICATION & DIRECTIONAL SIGNAGE

Room signs and directional signs are must-haves for schools to help guide the high volume of students, faculty and visitors for day-to-day traffic and special events. Eye-catching and easy-to-read signage solutions from The Sign Makers' Handbook™ make it easy for visitors and students to orient themselves within the building. Wall frames are ideal to identify rooms and main common areas such as gymnasiums, pools, libraries and offices, while directory systems and towers provide a central reference point for navigation. All of the signage systems from The Sign Makers' Handbook feature clear plastic lenses that easily snap out of frames to allow for graphic inserts or changes.

MENU BOARDS & POSTER FRAMES

Trappa snap frames are the ideal poster system for busy hallways and are ideal for use as menu boards for cafeterias. Front-loading snap-edge signs from The Sign Makers' Handbook™ provide the perfect interface for easy, quick changes, and are ideal for displaying and protecting flyers in busy hallways. A clear plastic lens protects from daily wear and tear.

STAFF IDENTIFICATION & COMMUNICATION CENTERS

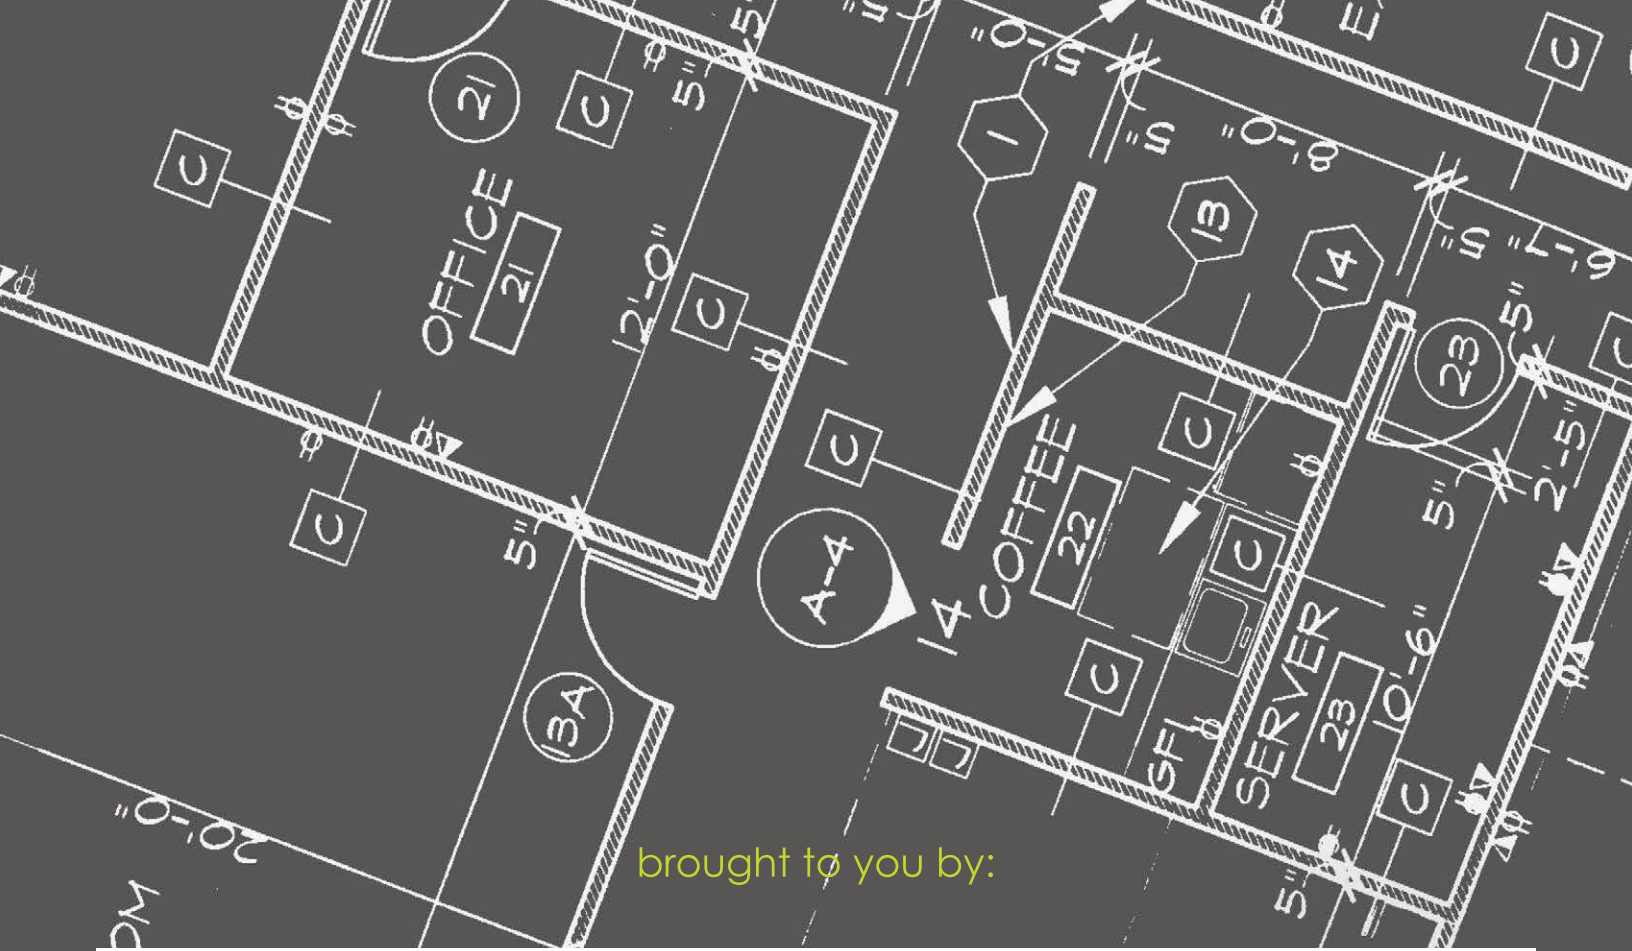

Stylish and simple desk frames quickly and clearly identify office staff, distinguish staff desks in shared offices, and provide checkout information or instructions in quiet libraries. With a small footprint and modern appearance, desk frames are versatile, allow for personalization and easy changes, and are perfect for identification.
